“ I went to school with Angie. She graduated with my brother. I haven't saw her in years but always remember how beautiful she was in school. She was a very sweet person, beautiful soul inside and out. Prayers for Tammy, Tina and Chuck in the days and weeks ahead. May God give you peace and comfort in knowing that she suffers no more.

“ I loved Angie and we had so many great times together. My first concert was with her, Todd and David. We tried to stay in touch with each but due to our families busyness we didn't get to see each other much. We did talk on the phone and she was one of the most humble person ever. Fly high my friend. Love you.

“ I have a lot of precious memories with my sweet friend Angie that I will keep with me forever! She was one of my very best & closest friends in High School and for some years thereafter. She was always so kind to me. As life most often does, it became busy and we lost touch for many years. I talked to her & would occasionally see her from to time. My heart breaks for her! I know she suffered with some health problems for a long time. I pray she is at peace now & no longer hurting! May God Bless & comfort her remaining family members & her children & grandchildren. I will always love & remember her! 💜🕊️💔
