“ Christopher was my biological father. I can't even begin to call him father because he was anything but that. He severely abused my brother Justin and I and we were not under the impression that we would be put on his obituary nor did we want to be. We are not Serenity and Justin Jude. We are both Serenity and Justin Fromsdorf and have been for years now. All of you need to stop reaching out to me now. Christopher was never my father and we are NOT his surviving children. Just because he's dead now doesn't mean he gets to claim us on his obituary when we never met him. Also, his "girlfriend" Dafany, he treated like crap and didn't show up for anything. He was a horrible man and all of you that are pretending otherwise are liars and the same as he was. Abandoned your children but wanna pretend like it was someone else's fault. I will FOREVER hold him accountable for his actions and I will never forgive him and unfortunately this is the only place I can say this. All of you reading this will not be contacting me anymore because none of you were around when I was a helpless child being SEVERLY abused by this man. I wouldn't be writing this now, years later if you people would stop harassing me. Take my name off of his obituary because he's NOT my father and will never be.
