“ Besides working under ground for over 20 years digging Coal, there was Nothing like little Brother Larry, seemed like no matter what I was working on mechanically he would be able to fix it, I bought my Jeep a year ago thinking I was in Major trouble because the passenger side window would not work, He told me to order the part on the computer and He would install it no problem at all, today I never roll down my power windows without thinking of who fixed it for me at 10 times cheaper than the big Garages would charge for the same thing. How brilliant without formal education all was just hands-on know-how, He could fix about anything.
